Subject : **Cast Resin Transformers**

Products : **NEW Enclosures**

To whom it may concern,

We are proud to announce the achievement of an important goal dedicated at one of the main accessories of cast resin transformers, the **new Enclosures**.

Actual situation:

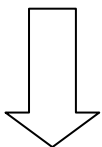

We have **19 different types of enclosures** (old type)
(some are standard and some that depending of accessories installed):

- 7 types of standard enclosures (class 12-17,5-24kV);
- 7 types of standard enclosures for class 36kV;
- 4 types of enclosures for elastimold;
- Special types;

New situation:

We have **ONLY 8 types** of enclosures (new type):
(compatible with all versions of transformers, also with every kind of accessory installed)

- 4 types of standard enclosures (class 12-17,5kV) & (24kV-BIL1);
- 4 types of standard enclosures for class (24kV-BIL2) & 36kV;
- Special types;

- ✚ **REDUCTION** of the types of enclosures
- ✚ **COMPATIBLE** with all versions of transformers
- ✚ **READY FOR** Zucchini busbar
- ✚ **EASY** to install and offer

The availability of the new enclosures **start from day 21.09.2017.**

In the case to receive the order from your customers with old code (after the day 21.09.2017), we ask you to propose at customer the new enclosure with new code present in table below.

Here you can find the correspondence between OLD & NEW types of enclosures.
